ADVERTISEMENT GUIDELINES

AIA Seattle's members are a design-savvy audience. In order to make your ad stand out and receive a high click-thru rate, please consider the following design suggestions:

1

Limit your word count.

Limit to 15 characters. Keep it short and simple. Too much information can have a negative impact and lead to a low click-thru rate, while well written content and a strategically designed ad can dramatically increase click-thru rates.

3

Be design-savvy.

A picture is worth a thousand words. Complementary colors, font selection, and typography treatment are essential. Please keep in mind AIA Seattle's red used on our website:
R: 250; G: 65; B: 50.

2

Use a "hook" phrase.

To entice potential clients, a well-conceived tagline or catchy phrase is key. To hook the viewer and increase the click-thru rate, it's important to have a brief "Call to Action" phrase.

4

Follow ad specs.

Advertisements must be in JPG or GIF format and the total file size must not exceed 100kb. ad images may be static or dynamic.

Please keep these design principles in mind to make your ad stand out. AIA Seattle must approve all ad copy and design prior to posting of ad.
